Harvests in Beijing

The Chinese Panda coins are treasured collectibles around the world for their yearly changing designs that always depict the popular and beloved panda. These desirable coins contain .999 fine Silver, adding intrinsic value beyond their collectible appeal.

Beginning in 2016, the Chinese Panda series was changed to gram weights to match the metric system. The 1 oz Chinese Panda coins were replaced by 30 gram coins. This change matches how the majority of the world weighs and trades Gold and Silver. The 2017 issue continues this new sizing system, which adds even more worldwide appeal to an already loved series. In addition to the unique design, the MS-70 certification and First Strike designation from PCGS make these Silver bullion coins highly collectible.
