

2016 Australia 2 oz Gold Proof Kimberley Sunrise (With Diamond Box and COA)

In the Kimberley region of Western Australia, the world's rarest diamonds were formed more than a billion years ago. To celebrate the beloved jewel, The Perth Mint released a second coin focusing on the Kimberley diamond. This 2016 2 oz Proof Gold Kimberley Sunrise coin features a bright white diamond representing the rising sun on the horizon.

This large, high-relief Gold coin shows a boab tree, native to Australia, in exquisite detail in front of a rising sun. In the background is the desert-like Kimberley landscape. This coin is slightly concave, with high-relief details, showcasing each aspect of the design better than you could even imagine. Only 500 of these 2 oz Gold coins were produced, making it a must-have for any collector.

HIGHLIGHTS

- A fine white diamond is embedded near the horizon, representing the rising sun.
- Maximum mintage of 500 coins.
- Obverse and reverse are concave with high-relief details.
- Each coin comes in a custom diamond-shaped box with a certificate of authenticity.
- Contains 2 oz of .9999 fine Gold.
