

10 oz Sunshine Silver Bar

Sunshine Minting is a well-known name in Precious Metals processing. Their Gold and Silver bullion products are valued for their high purity and elegant designs. These 10 oz Silver bars exemplify those traits.

Each of these Silver bars features Sunshine Minting's unique MintMark SI™ security feature, which, when viewed through the special decoder lens (sold separately) at one angle, shows the word "Valid," but when you turn the decoder lens 90 degrees, a sunburst appears. These give further verification of the bar's weight and Silver purity.

HIGHLIGHTS

- MintMark SI™ security feature to authenticate the origin, weight and purity.
- The obverse of the Silver bar bears the Sunshine Minting eagle with sun and rays in the background.
- Listed on the obverse are the weight and purity.
