

# 2014 Armenia 1 oz Silver Noah's Ark

Honoring one of the most well-known Biblical stories, the Armenian Silver Noah's Ark coin series depicts the story of the ark, in which Noah, his family and two of each animal survived the flood. The stunning reverse image, designed by Eduard Kurghinyan, pays tribute to this remarkable story and features an inspirational dove in flight with an olive branch and Noah's Ark floating on the flood waters in front of Mt. Ararat and the rising sun.

Known for its supreme minting quality and purity produced by one of the most modern private mints in Germany, Geiger Edelmetalle, each coin is legal tender at its face value and is issued by the Central Bank of Armenia. Coins are also available in sizes ranging from 1/4 oz through 5 kilo.
