The Silver Libertad has been Mexico's treasured coin since its first minting in 1982. The obverse features an image of the Angel of Independence, or Winged Victory, statue, which has been one of the most recognizable landmarks in Mexico City since 1910. Also on the obverse are Popocatepetl and Iztaccíhuatl, two volcanoes that overlook the Valley of Mexico. These volcanoes tell a story of two lovers from warring families, similar to Romeo and Juliet. The volcanoes represent the warrior Iztaccíhuatl mourning the death of his beloved Popocatepetl.

In 2015, as a special collaboration between the Banco de México and APMEX, the mint released a two-coin set featuring the Proof Silver Libertad and an exclusive Reverse Proof Silver Libertad. The set was such a hit that it has been produced again for 2016. Each set comes in a custom wooden box with both company logos, safely protecting this unique APMEX[®]clusive[®] product.
