The clay was introduced as a value measurement on this release

Includes a latent security feature

Minted by KOMSCO, official mint of South Korea

In 2016, the official mint of South Korea, KOMSCO, introduced a new Silver bullion release featuring the legendary Korean figure, Chiwoo Cheonwang. This 1 oz Silver medal was an instant success for its unique subject and exquisite detail. The limited mintage was quickly sold and it became a huge collector's item.

After a successful second release in 2017, APMEX was pleased to discover two 2016-dated medals that had been produced but never released to the public. One of these issues was a 1 oz Gold medal, produced with an exceptional Prooflike finish. Containing an ounce of .999 fine Gold with a mintage of just 2,016, this Gold medal is ideal for both investors and collectors

HIGHLIGHTS

- First Gold release in a widely popular series.
- Each medal contains .999 fine Gold.
- Honors the legendary South Korean figure Chiwoo Cheonwang, known as a symbol for victory and a guardian figure.
- Medals come in an official assay card from KOMSCO.
