

2017 1 oz Gold Elk (.99999 fine Gold)

In 2014, the Royal Canadian Mint introduced a new series featuring coins containing .99999 fine Gold, purer than any other Gold coins on the market. This Call of the Wild series focuses on predators that have ruled Canada for centuries, and this fourth release highlights the spectacular elk.

In addition to the image of a powerful elk, this 1 oz Gold coin contains unique features. The background lines represent the elk's bellow, while the different finishes emphasize the thick, textured fur. Below the elk is a small maple leaf privy mark that shows a "17" when viewed under magnification, providing further authenticity.
