Famed Libertad design of Winged Victory with Popocatepetl and Iztaccíhuatl in the background

The Gold Libertad has been Mexico's treasured coin since its first minting in 1982. The obverse features an image of the Angel of Independence, or Winged Victory, statue, which has been one of the most recognizable landmarks in Mexico City since 1910. Also on the obverse are Popocatepetl and Iztaccíhuatl, two volcanoes that overlook the Valley of Mexico. These volcanoes tell a story of two lovers from warring families, similar to Romeo and Juliet. The volcanoes represent the warrior Iztaccíhuatl mourning the death of his beloved Popocatepetl.

Adding even more exceptional beauty to the design, the Proof Gold Libertad features a mirrorlike finish that brings depth to the classic design. Each of these 5-coin sets contains all Proof Gold Libertads from 2017 and includes a numbered certificate of authenticity from the Banco de México.
