

2018 1 oz Platinum Australian Kangaroo

Following the widespread popularity of their Gold and Silver Kangaroo series, The Perth Mint introduced a new Platinum Kangaroo bullion coin for 2018. The design is similar to the beautiful Silver Kangaroos, featuring a kangaroo bounding to the left. However, these Platinum Kangaroo coins show the kangaroo surrounded by sun's rays, creating a simple, elegant design.

Struck from .9995 fine Platinum, the Platinum Australian Kangaroo carries on The Perth Mint's long tradition of producing high-quality, beautiful coins. The first Australian Platinum coin was the Platinum Koala, launched in 1988. This release carries on the legacy and is sure to be popular with both collectors and investors.

HIGHLIGHTS

- First-ever Platinum release in the Perth Mint Kangaroo Series.
- Each coin contains .9995 fine Platinum.
- Honors the beloved Australian kangaroo.
- Single coins come in plastic capsules. Multiples of 20 come in a sealed roll. Multiples of 100 come in a sealed box.
